

# COLOR SEAL

Modern Stone's Color Sealer is the premium solution for transforming old grout back to new and extreme protection against staining. Its advanced water based formula quickly bonds to grout lines to create an even and uniform color and appearance. The Color Sealer is an excellent choice if a change in grout color is desired. This product is available in most grout manufacturer's colors, providing over 400 shades to choose from.

## USES

» Grout

### WARNING:

Because this product is pigmented it is not recommended for use for grouts in natural stone installations.

## COVERAGE

Approximately 400 sq. ft. per 8 oz. on 12"x12" inch tile

## VOC

VOC: 24 g/l

## APPLICATION

1. For grout older than 6 months use Modern Stone's Revive to prep grout prior to color sealing.
2. Shake well before using.
3. Apply narrow bead of grout stain sealer on the grout joint. Using a toothbrush, or similar applicator, spread product evenly along grout joint with a scrubbing motion.
4. While Color Sealer is still wet, wipe off excess from surrounding tile with a damp (not wet) towel or sponge. Apply in small workable sections.
5. When product has "set" (30 minutes to an hour), lightly clean the tile with a damp (not wet) towel or string mop to remove haze.
6. Changing grout colors light to dark or dark to light may require an extra application. Two thin coats are better than one heavy coat.
7. Dry buff surface to remove any left over haze.
8. Drying time depends on temperature, humidity. Generally a second coat may be applied after about 30 minutes. The surface may be open to light foot traffic in 3 to 4 hours. Keep grout dry for 7 days.

### Handling & Storage:

Product may irritate eyes and respiratory system if sprayed. Use in well ventilated area.

### Caution:

Close container after each use. Store in original container only. Keep in a dry, well-ventilated area. Avoid freezing or long-term high temperature storage. DO NOT THIN OR DILUTE.
